Information Logistics

CN-Consult offers solutions for dispatching, passenger information and positioning, as well as advice and support for your IT projects with experts both for temporary project work and permanent assignments.

We provide customer-specific, integrated solutions, particularly in the areas of project management, systems analysis and operating process design, quality management, software development, IT infrastructure administration and IT security.

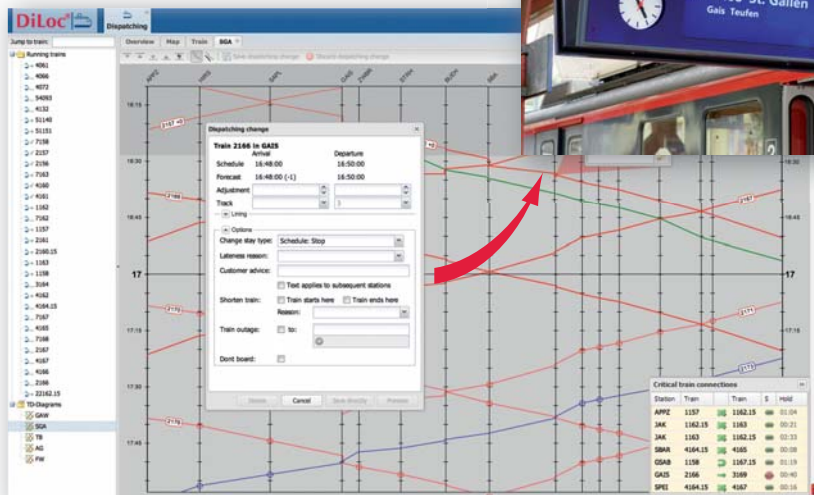

## DiLoc|Rail, DiLoc|Bus + DiLoc|Ship

Schlüsselfertige Lösungen für Disposition, Fahrgastinformation und Lokalisierung

- Precise dispatching with **real-time data** from GPS, LeiDis, ILTIS, etc.
- Quick overview using configurable **time-distance line diagrams**
- Intuitive **timetable manager** for annual timetables through to individual daily adjustments
- Calculating **predictions** and **missed connections** based on target and actual data with output to business partner via **VDV interfaces** inbound an outbound
- Direct control and supervision of **train destination displays, departure boards, pillars** and **train announcement systems** as well as direct control of **passenger information in the vehicle** showing **target and actual data** from DiLoc|Rail
- Real-time passenger information with **DiLoc|App** and **QR codes** on stations and in vehicles
- **Statistical assessment** and **documentation** of train movements
- Preparation and **export** of the data in various data formats
- **DiLoc|Sync** - Communications platform for staff on the move (e.g. train drivers)
- **DiLoc|OnBoard** - System solution (hard- and software) for passenger information on trains, busses and ships
- **DiLoc|Outdoor** - Communications platform for staff in the outdoor area
- **InnoScreen** - Innovative display technology in a super flat design

Event-oriented, automatic management of all displays and monitors directly from the time-distance line diagram

DiLoc|Rail
How It Works

DiLoc|Rail - the central system for dispatching and dynamic passenger information - stationary and on the train
